# WebsterBank<sup>®</sup>

# Consolidate your company spending and manage your workflow.

The **Webster Bank Commercial Card** offers companies a cost-effective way to re-engineer procurement and employee travel expense payments and reimbursements. Integrated workflow tools and online data delivery help to automate transaction allocation, reconciliation and general ledger integration.

#### Card spending controls

Flexible, detailed card spending and velocity limits can be configured at the individual account level so you can customize spending privileges based on your employees' specific needs.

#### Merchant category code

- Restrict card usage through predefined spending categories
- Establish up to four spending groups per card for more focused expense control and employee compliance
- Assign separate month and per-transaction limits per group

#### Monthly and per-transaction spending limits

- Set limits per card for a specific transaction or period of time
- Ensure that expense thresholds are kept in check and overall exposure is minimized

#### Billing and payment process

#### Consolidated invoice

- · Receive one consolidated invoice for all individual accounts
- Eliminate individual checks for each transaction or cardholder
- · No interest charges—account is paid in full each month

#### Company-selected billing date

 Control cash flow by aligning the billing date with your accounting cycle and check runs

#### Cardholder memo statement

 Cardholders receive a paper or online memo statement for their individual account(s)

#### Central billing account

- Consolidate high-cost expenditures into one account number
- Eliminate the need to issue higher credit limits to individuals

For more information, speak to your Relationship Manager or visit snb.com/commercial-card.

# Access transaction and statement-level information

- View detailed transaction information, and allocate transactions into appropriate cost centers and expense categories online.
- Managers can review employee expenditures online, providing
- A completely automated reconciliation process.

#### General ledger integration

- Download information directly into your accounting system through a file interface.
- · Eliminate manual process for expense allocation.

#### Management-level reports

- Access standard management reports online for timely information.
- Email specific reports to designated recipients based on a predetermined frequency.
- Download transaction data (via flat file) into other popular software packages for ad hoc reporting, or export data into your accounting system.

#### Employee misuse coverage<sup>1</sup>

 Provide your organization with protection against potential employee card misuse. Visa® provides \$100,000 coverage, per card, against loss. Coverage includes up to 75 days of protection for terminated employees.

#### Implementation and support

We treat each commercial card implementation as a customized project, and we assign experienced implementation specialists to work with your business to plan, design and develop a card program.

- We offer turnkey program materials, access to an implementation specialist group and round-the-clock customer service for cardholders.
- Our approach, built firmly on industry-proven best practices, can help ensure a successful card program.
