

Digital Equity Survey

Part of the rejuvenation of Kent's Hi-Speed Broadband Access Plan will include partnership and support from the State of Connecticut as well as from our Internet Service provider. I will be working with the Board of Selectman to reconstitute our Broadband Access Committee and restart the work of bringing Hi-Speed internet to Kent; from the top of Skiff Mountain through the center of Kent all the way down to the Hollow. The survey/comment website sent to us from the State of Connecticut is going to be part of the process and in order to capture your opinions, ideas, suggestions, and observations, we really need the community to participate.

The website below will take you to the homepage of the Digital Equity plan as well as the area where you can make comments. Thank you for participating and helping Kent be a part of defining digital equity for our community and our State.
