

Booster Shots Announcement

Today the Governor announced that residents aged 65 and older may begin scheduling an appointment for a booster

During a press conference this afternoon, the Governor announced that the CDC Advisory Committee has approved residents **65 and older**, who have had the **Pfizer** vaccine in the last six months, are eligible to receive a booster.

If you are eligible for a third dose, you can receive the vaccine through your healthcare provider, a vaccine clinic, or participating pharmacies.

Locally, the High Watch Vaccination site at The Kent Barns is open Tuesday and Wednesday from 9:00a - 1:00p. If demand increases, they will increase their hours to meet the needs of the community.
