Preparation of Items

In order to make your trip to Household Hazardous Waste Collection Day as quick and easy as possible here are some things you should do to prepare your items:

1. Keep items in their original container.
2. Organize similar items together in a box(es). This will allow workers to review your items more quickly to ensure proper disposal. Please keep **PaintCare** products separate from other waste (see Note below).
3. Place items in boxes, pad with newspaper. This will help prevent

possible spillage in your car/truck and will enable workers to remove materials quicker.

4. Pack your car and drive directly to the site.

PaintCare Program

(www.paintcare.org)

Please place the following products together in one or more boxes: interior and exterior architectural paints (latex, acrylic, water-based, alkyd, oil-based, enamel), deck coatings, floor paints, primers, sealers, under-coaters, stains, shellacs, lacquers, varnishes, urethanes (single component), waterproofing, metal coatings, concrete/masonry/wood sealers and repellents (not tar or bitumen-based), rust preventatives, field and lawn paints

What NOT to Bring

Waste oil, vehicle batteries, radioactive materials, asbestos, ammunition, tires, explosives, fireworks, empty aerosol cans, smoke detectors, industrial or commercial wastes, infectious and biological wastes, syringes, electronics (old computers, etc.)

Never Mix Chemicals/Never Smoke

While handling hazardous materials.

No containers over 5 gallons in size will be accepted without special town permission prior to the event.
