

Take the Challenge Let's Talk Trash via ZOOM

October 25th, 6:00-7:30pm

Kent launched a NEW waste reduction and food scraps recycling program in July at the transfer station. The purpose is simple, reduce waste and save as your throw. It's easy to join - just Take the Challenge!

This zoom chat is to check in with participants and share the current results. We want to hear what is working for you, what questions or feedback you may have. How can we improve the program, or what do you really like that we can share with other HRRRA towns.

Join us and celebrate the progress of residents who've taken the challenge in Kent's Save As You Throw program. Learn how you can join and contributed to reducing waste.
